

Check out the video of **Dan Palmer** shredding on his [Ravelle](#) on the new **DEATH BY STEREO** song!

This is a rough mix of our new song, "Wtf is going on around here?". From the forthcoming **DEATH BY STEREO** album Recorded & Produced by Paul Miner at Buzzbomb Sound labs.

As posted in DBS facebook page: "Meet Dan Palmer.. he likes long walks on the beach, british accents, mustaches and shredding faces with his guitar and toy-keyboard. Studio hijinx and a new song from those loveable bastards known as Death By Stereo! -C"
